

Rouenneries Trois

**French
General**

Over 15 years ago, Moda asked us to design a collection of French-inspired prints, filled with the old reds and neutrals that were popular in France in the 18th and 19th centuries. We called our first fabric collection Rouenneries and it is, still to this day, one of our favorites. Since then, we designed Rouenneries Deux and in September 2024, we are excited to release Rouenneries Trois – the third in a series of antique florals and small prints in a traditional French palette.

We hope you enjoy this classic re-interpretation of a favorite collection from French General.
