14 GUNMETAL

20 CLARET

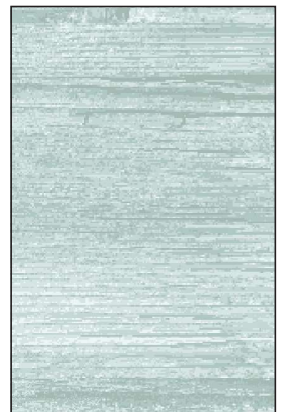

30 HONEY

78 NUTMEG

10 RED

84 TURQUOISE

Wait until you see this texture! Just imagine the side of a wooden barn or bridge, beautifully painted. The sun and wind and rain have all had a turn at embracing the wood. It's been several years and now the washed paint highlights every little nook and cranny and creates a rich surface. That's Washed Woods. These wood textures range in color from the palest neutrals to reds, greens, blues, and a cool selection of grays. (Gray always adds a modern touch to your project!) This is definitely a basic that you will want to keep on hand at all times... but beware... it's more than basic... it's a beautiful basic!
