43 LEAF

Looking for a unique texture in cool colors that goes with just about everything? It's Winter Wool by Cheryl Haynes! These textures really look like wool, and the colors are spectacular. Cheryl provided seven color families (black, navy, blue, green, red, purple, and brown) and shaded them from dark to light. These combinations of texture and color are very rich... you can almost feel the warmth. This is a must-have basic that will add color and depth to any project. Stock up now!
